

SUMMARY

I'm 27 years old and a full-time student at Utah Valley University working toward a Bachelor's degree in Web Development. In the evenings, I attend a full stack Web Development program at the University of Utah. When I'm not studying, I am web developer for UVU's Web Development Services. I have been making websites since I was 14 years old — you could call it a passion of mine.

Before returning to school, I worked installing, maintaining, and styling WordPress websites. In this role, I prioritized user experience, accessibility, and responsiveness to drive and capture mobile users in a rapidly changing web landscape.

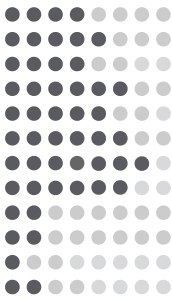

MY SPECIALITIES

SKILLS

01 Web Development (Training)

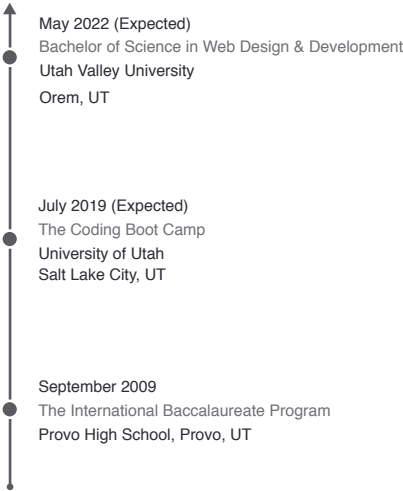

Adobe Photoshop
Design Patterns
Algorithms
HTML & CSS
JavaScript
Bootstrap
